Query View
Query View allows you to design a modified status view consisting of selected organizations and scope items. The resulting status view allows you to compare the C-Ratings of the selected organizations for the selected scope items. For example, you can create a status view containing ARMY, Southeast Region and Fort Bragg, and Mission, Training Ranges & Areas, Small Arms Ranges and Zero Ranges.
Query By Selected Scope Level
Query View by Selected Scope Level allows you to design a chiclet display for a selected organization and scope item consisting of all C-Ratings for a selected scope level subordinate to the selected scope item that meet selected ratings criteria. For example, All FCGs under the Mission Area that have quality ratings of C1 or C2 for Korea.
Query By Selected Organization Level
Query View by Selected Organization Level allows you to design a chiclet display for a selected scope item and organization consisting of all C-Ratings for a selected organizational level subordinate to the selected organization that meet selected ratings criteria. For example, All Installations under Europe that have quality ratings of C1 or C2 for the Family Housing Category.
